COMMENTS FROM THE AUDIENCE

1. Dr. Jean Lecuyer, Director of the Science Center, Emeritus Professor of Physics and former Planning Coordinator, Glendale Community College

Dr. Lecuyer addressed the hiring of a consulting firm for Educational Master Planning. He stated reasons as to why a firm should not be hired at this time. His reservations are as follows:

- Nature of the plans – the plans have a very limited value, are an old fashioned way of planning, and are a collection of wish lists which due to their size are not read.

- Timing – it may need to be revised in six months due to Garfield Campus expansion and Los Angeles District's plan to continue development of a satellite campus.
- Scans and SWAT analysis – the planning can and should be conducted internally by the college.
- Prior consultants – the college has been disappointed with results in the past.

Dr. Peroomian noted that New Business Report No. 5 will be pulled from tonight's agenda for consideration and will be tabled until the August Board meeting.

2. Ms. Telma Cifuentes, 1524 Yosemite Drive, Eagle Rock, GCC Student

- Following up on accountability on the student services issue and compliance from the June Board meeting.
- She stated that she has consulted with the Chancellor's office and has been informed that the Board of Trustees does not have a direct responsibility on some issues but should be responsive to students' needs.
- She asked for the Board of Trustees' response within 10 days.
- Reiterated the problem with the condition of the Athletic Trainers Room.
- Submitted concerns from the athletes to the Board.
- Has filed a complaint with the U.S. Department of Education.
- Can recommend community members who are willing to help with the repairs.

SPECIAL PRESENTATIONS

1. "Baja California Field Studies Program: New Field Station Report" – by Dr. Javier Gago, Associate Professor of Biology, Glendale Community College

Dr. Gago presented the Board with a slideshow of the Baja map, construction progress and status of the buildings. He reported that the station is about 95% complete. He noted that they are hoping to change the barbed fencing in the future. He also stated that he and his co-coordinator Maria Kretzmann are working on a brochure about the station. Also, he reported that they are in contact with various colleges who have expressed an interest in using the Baja station.

Dr. Hacopian encouraged Dr. Gago to have a public relations plan and market the Baja station. She also asked about the capacity. Dr. Gago stated that depending on the type of class the capacity is between 26 – 40 students. Dr. Hacopian also asked about the budget for the construction. Dr. Gago replied that we have about \$9K left which should be enough to cover the small expenses that are left. He also stated that he and Maria Kretzmann are pursuing advertising through the Foundation. Dr. Lindsay asked Dr. Gago to discuss the Station Manager position, and Dr. Gago said that Dr. Mercadé will retire soon that this is a vital position and possibilities are being explored. Dr. Hacopian commented that the station looks beautiful and thanked all those involved. Mrs. Gabrielian asked Dr. Gago to comment on safety issues. Dr. Gago stated that there have been no safety issues in the past 36 years of the Baja program. Dr. Hacopian asked about insurance and Dr. Gago stated that the Baja Committee recommends that students purchase an international insurance card which covers excesses.

Dr. Peroomian thanked Dr. Gago for his informative presentation.

2. "Noncredit ESL: A Pathway to Success" – Ms. Deborah Robiglio, Instructor of English as a Second Language, Continuing Education, Glendale Community College

Ms. Robiglio welcomed everyone and showed them an informative i-movie which showcased the Noncredit ESL program through student testimonials, and comments from the instructors involved.

Dr. Peroomian thanked Ms. Robiglio for her informative and unique presentation. Mrs. Gabrielian also thanked Ms. Robiglio and said that she is a proud alumni of GCC's Citizenship program along with her parents and siblings.

3. "KH Consulting Group" – Dr. Gayla Kraetsch, President and Mr. Thomas Greer, Senior Consultant, KH Consulting Group

Dr. Kraetsch distributed hard copies of a PowerPoint presentation regarding the hiring of KH Consulting Group for the college's Educational Master Planning Services. Highlights of the presentation are as follows:

- KH Overview
 - HH's Education Clients
 - Sample HK Planning Projects
 - KH Multi Disciplinary Team
- KH's Understanding of the Project
 - GCCD's Prior Planning Initiatives and Building Blocks
 - GCCD's Planning Distinctions
 - Project Objectives: Academic Programs and Student Services
 - Planning Outcomes
 - Joint-Team Approach
 - KH's Conceptual Model for the Planning Process
 - California Community Colleges System: Strategic Framework
 - Project Tasks – 6 Months
 - Stakeholder Input on KH Projects
 - Stakeholder-Driven Strategy: Key Concepts and Definitions
 - Summary

Dr. Hacopian thanked Dr. Kraetsch and asked whether she is currently working with LACC and if she sees any conflicts. Dr. Kraetsch responded by saying that the project she had worked on has been finished and that there are no conflicts. Dr. Hacopian also asked Dr. Khaetsch if she had had a chance to review the 2003 Master Planning document and if they can build on that. Dr. Kraetsch responded that this document is not available online but that KH would be happy to study it in order to avoid any duplication of efforts. Dr. Karen Holden-Ferkich can provide KH Consulting Group with a copy.

Ms. Ransford commented that she is interested in seeing how KH is going to integrate their report into the Strategic Master Plan. Dr. Kraetsch responded by saying that they will take a strategic model to address a higher level goal and the programs and curriculum can be aligned with that to reach potential growth.

Mr. Tartaglia thanked Dr. Kraetsch for her presentation and asked about the budgeting process having limited resources and how an integrated budgeting process would be drafted for a long term strategic plan. Dr. Kraetsch responded by saying that given the current fiscal condition, there is a tendency to eliminate things that are not "main mission," however; there are times that programs that generate growth and funds should be looked at in terms of recovery plans. She also said that at times hard decisions need to be made, but utilizing different strategic models and looking at cost reduction areas such as location will make a difference.

Dr. Queen asked about the external scan and the type of data and instruments that will be used. Dr. Kraetsch stated that they will use the data the college has, trend data, and economic data. KH will also use online surveys through mass emails and organizations, and conduct a forum. They will work internally with the college regarding the attendees and will use an "open forum" approach. Dr. Queen then asked about colleges KH has conducted surveys for. Dr. Kraetsch mentioned Los Angeles Trade Technical College, Southwestern College, and Ventura Community College District

and briefly explained the methods used. Dr. Queen then said that he reviewed the Ventura Community College District's report prepared by KH Consulting and stated that there is a lot of interest in what is going on in the outside community.

Dr. Hacopian encouraged Dr. Kraetsch to look at the City of Glendale's comprehensive external scan which was completed a few years ago.

Dr. Perroomian remarked that the external scan has been the weakest link at the college. He attended a national meeting last year and noticed that other colleges had weekend retreats for community members. He said that the college has been criticized in the past for not being cognizant of what the community wants. He stated that we do need a proper external scan.

He then announced again that New Business Report No. 5 will be tabled to give everyone a chance to have open discussion.
